

AUTOMATIC OVER PUMP

The Automatic Over Pump offers security, saving time and great comfort of use thanks to its electric pump, allows the suction of oils without any effort, in a few seconds.

- 115-litre tank, allows emptying a whole battery of fryers in one go.
- Avoid going back and forth to the collection drum to save time.
- No need to remove any drain pan from the fryer.
- Anti-drip lining for the suction rod, prevents oil spills on the floor.
- Closed tank prevents oil spills during transport.
- Anti-overflow system with alarm and light signal, emergency stop button, for maximum safety.
- Much more efficient than the giraffes, its filter incorporated into the suction rod does not let waste pass through, avoiding blockages.
- Effortless suction and delivery of oil thanks to the electric pump.
- Disconnect able power cable and suction tube for quick assistance.
- Aspiration and delivery possible between 10 and 175°C.
- Dimensions studied for easy handling in kitchens.
